SUMMARY

Mechanical and Mechatronics Engineering graduate with one year of experience in automotive technical service and product data management. Skilled in product troubleshooting, root cause analysis (RCA), automotive diagnostics, product data validation, data enrichment, quality assurance, and technical documentation. Proficient in AutoCAD, SolidWorks, and MS Excel, with strong analytical, problem-solving, and communication skills. Committed to delivering accurate technical solutions and supporting engineering services through efficient data management and continuous process improvement.

EXPERIENCE

N.MAHALINGAM & COMPANY (FORCE MOTORS DEALERSHIP)

FEB 2025 - MAR 2026

Technical Service Advisor

- Diagnosed mechanical and electrical faults using systematic troubleshooting techniques
- Performed Root Cause Analysis (RCA) to identify and resolve recurring technical issues
- Prepared technical service reports and maintained accurate service documentation

ECLERX SERVICES LTD

MAR 2026 - PRESENT

Analyst

- Perform product data analysis, data standardization, and quality assurance using MS Excel
- Identify and resolve product data discrepancies to improve overall data quality
- Validate, enrich, and maintain product information to ensure data accuracy, consistency, and completeness across digital platforms

EDUCATION

SNS College of Engineering (2021-2025)

B.E Mechanical and Mechatronics Engineering

CGPA: 7.80 / 10

G.B.H.S.S (2020-2021)

HSCC

Marks- 488 / 600 (81.3%)

Nagini Vidyala Hr. Sec. School (2018-2019)

SSLC

Marks- 371 / 500 (74.2%)

PROJECTS

- 3D Printed Ceramic Bearing by using SLS Process
- Bluetooth Based IoT Communication System
- Oneday Insurance Renewal System using RFID Sensor

ADDITIONAL INFORMATION

- **Technical Skills:** MS Office, MS Excel, Data Enrichment, Data Standardization, SolidWorks, AutoCAD
- **Soft Skills:** Analytical Thinking, Problem solving, Attention to detail
- **Languages:** English, Tamil
